Family Camping

Camping with Friends

Low Impact Camping

We start with an empty field,
we put up a 'village' for our
camp, and we end with an
empty field again....

What Cody does not do

- Duties - none
- (We expect help with dinghy and road trailer maintenance if you've got access to a club boat)
- Berths - we have no boat storage facilities
- Clubhouse - we have none of our own
- Racing - almost none... apart from the rivalry when two boats are sailing in company
- Safety boats - we sail in a way that minimises the need

ITCHENOR TO EAST HEAD

EXPLORE THE BEAUTY AND WILDLIFE OF THIS AONB

One of the busiest areas for sailing on the south coast, there are plenty of racing dinghies and moorings to see and navigate round as well as beautiful wildlife. This trail is best on a day with a low tide between noon and 16:00 so that you dry out nicely at East Head, and have the tide with you for the return. Pack your picnic and hop on board for a memorable days sailing!

KEY:

-  Sandbanks
-  Refuge area

3 There are several landing areas along East Head, however Snowhill Creek, is a sheltered spot in most conditions. The water goes out along way - make sure you can still get your boat back to the water

Check out this essential safety guide to sailing in Chichester Harbour rya.org.uk/go/chichestersafety.

Be aware that the harbour entrance is deep with a very fast tidal flow of a maximum of 6 knots. At the western end of East Head, the sand drops away abruptly and the tide can rip past. The harbour has soft mud in many locations, and it's best not to get out of your dinghy unless you are sure of the ground being hard.

IMPORTANT INFORMATION

Distance / Time	6 miles / 2 hours
